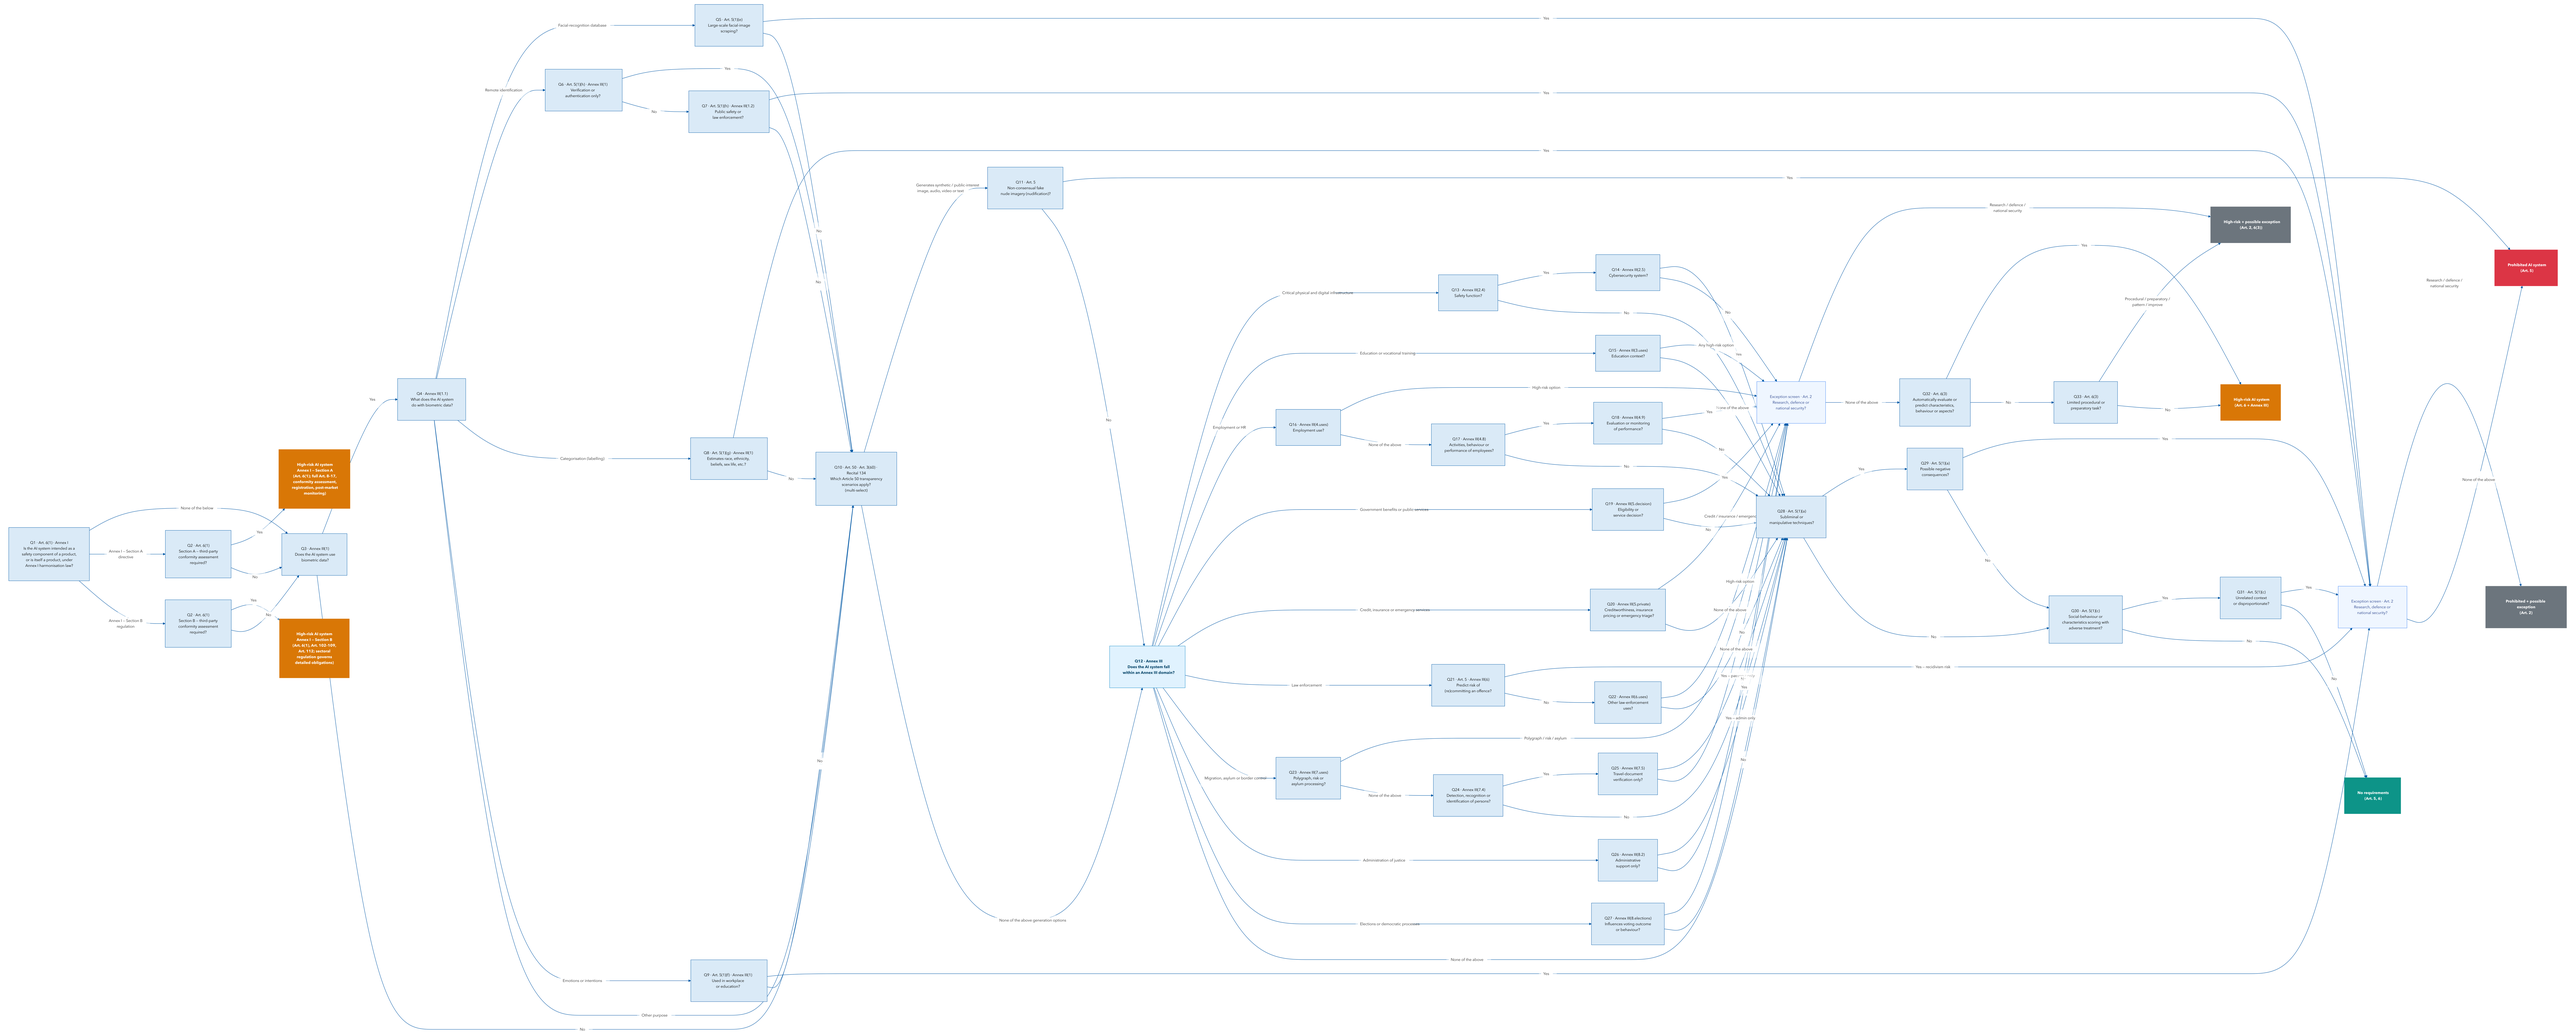
Algorithm Audit

Flowchart – Risk category (Art. 2, 3, 5, 6, 50 and Annex I, III AI Act)


This schematic representation shows the logic required to determine the risk category of an AI system according to Article 2, 3, 5, 6, 50 and Annex I, III of the AI Act, covering the Annex I safety component / product check, the Article 6(1) third party conformity assessment, the biometric data screen, the Article 50 transparency screen, the Annex III high-risk domains, the prohibited practices screening of Article 5(1)(a) and (c), and the Article 2 exception screen with the Article 6 classification rules. The complete questions can be found in the AI AQT tool itself.
